(1) Material Handler weight recommendation is an approximation only. The length of the full boom/arm and possibly jib will effect lift capacity. All applications must be approved by Stanley LaBounty prior to sale.
 (2) Attachment weights can vary +/- 5% , depending upon mounting bracket configuration.
 Note: Weights, dimensions and operating specifications listed on this sheet are subject to change without notice. Where specifications are critical to your application, please consult Stanley LaBounty.

Features

Stanley LaBounty® Orange Peel Grapples are designed for maximum gripping power, capacity, ease of maintenance and durability. Key features include:

Double Shrouded Cylinders - The independently operating cylinders are built to survive in the harshest of environments and are protected with stout, bolt-on shrouding.

360° Continuous Rotation - For precise handling, picking and placing of material.

Tapered Tines - For removing tine tips from material it may have penetrated like sheet iron.

Heavy Duty bearing and swivel manifold for reliability.

Orange Peel Grapple Applications

These grapples are specifically designed to handle a variety of scrap metals, both ferrous and non-ferrous. They are excellent for loading shredders, balers, rail cars, trucks, etc. By virtue of their design, they are also excellent for unloading trucks and railroad cars, being able to get into the corners.

Warranty: All Stanley LaBounty Orange Peel Grapples carry a 12 month or 1500 hour warranty (whichever occurs first) against defects in material and workmanship. Stanley LaBounty reserves the right to repair or replace only those parts that prove to have been defective at the time of purchase. Ask your Stanley LaBounty dealer to explain this warranty in detail.
