# SHEARFORCE DEMO GRABS

**SAVE MONEY WITHOUT  
SACRIFICING POWER AND  
DURABILITY.**

Add the power of ShearForce demolition grabs to your equipment fleet. ShearForce rotating demolition grabs are designed for demolition, handling, and sorting concrete, rock, wood, and metal materials. An oversized central hydraulic

cylinder and load holding valve secure the load if the oil supply is cut off. These grabs are tough enough to handle your demolition projects and precisely place sorted material on your jobsite.

Model	Weight (lbs)	Jaw Opening (inch)	Jaw Width (inch)	Closing Force Blade (tons)	Operating Pressure (psi)	Carrier Weight (tons)
RDG6	1102	59	21.6	2.3	3500 - 4300	6-10
RDG8	1653	71	24.4	3.75	4300	10-14
RDG12	2535	73	33.5	4.6	4600	13-22
RDG15	3196	79	39.4	6.1	4900	16-28
