

BUILDING. DEMOLISHED.

CONCRETE. CRUSHED.

JOB. DONE.

SHEARFORCE ROTATING PULVERIZERS

Add the power of ShearForce rotating demolition pulverizers to your equipment fleet. ShearForce rotating demolition pulverizers are built with the strongest Hardox® and Weldox® steel, making them lighter weight and easier on your machine without sacrificing power and strength. With a streamlined design and powerful rotation capabilities, ShearForce pulverizers are the most reliable and effective tool for primary demolition and recycling of reinforced concrete structures. They're also ideal for secondary demolition, size reduction, and separation of rebar from concrete.

SAVE MONEY WITHOUT SACRIFICING POWER AND DURABILITY.

- Exceptional power-to-weight ratio
 - Speed boosting system provides faster cycle times compare to competitive models.
 - Steel cutting blades in throat with four useable sides.
 - Heavy duty planetary gear box provides precise and accurate rotation.
 - Bolt-on teeth for efficient replacement of worn or damaged teeth, reducing down time.*
- * Except RDP5 model.
