

# SHEARFORCE TANK CUTTERS

Shearforce Tank Cutter Shears are specialized attachments for excavators dedicated to cutting tanks and flat iron plates.

- Cuts a rectangular slot in the steel, producing smooth and straight edges of steel plates
- Always leaves the remaining sections flat and easy to handle.
- Ideal for deconstruction on barges, railway cars, grain, water, oil and fuel tanks
- The standard range goes from 2 to 7 ton of weight and allows the cutting of flat iron plates with thickness from 0.75 to 1.5 inches.
