

SHEARFORCE VH SERIES PILE DRIVERS

Add the power of the ShearForce VH Series Pile Driver to your equipment fleet. Engineered for deep foundation, utility, marine, and shoring projects, these excavator-mounted attachments deliver exceptional value and versatile on-site capabilities. From seamless handling to high-speed driving and extraction, the VH Series is designed to maximize efficiency on every job site.

SPEED UP PERFORMANCE WITHOUT LIMITING YOUR PILE OPTIONS.

- Full pile control with 360° rotation and 90° tilting.
- Ground-to-vertical handling picks up flat piles seamlessly.
- Easy clamping with no extra ground-level prep work.
- 30% efficiency boost over standard basic-type pile drivers.
- Shorter cycle times achieved on every sheet piling job.

Needs. Met.

Model	Boom Length (m)	Carrier Weight (tons)	Frequency (rpm)	Centrifugal Force (tons)	Oil Flow (gpm)	Dimensions (mm) (LxWxH)	Weight (lbs)*	Suitable Pile Mass (lbs)*
VH25T	Standard 2.3	18-26	3,600-3,800	40	42-55	2,057 × 1,353 × 740	5,500	1,760-2,200
VH25T	Long 3.0	24-32	3,600-3,800	40	42-55	2,357 × 1,353 × 740	5,687	1,640-2,045
VH30T	Long 3.0	27-36	3,000-3,400	58	55-63	2,252 × 1,319 × 822	6,440	2,645-3,200
VH40T	Long 3.2	37-46	2,800-3,200	69	63-71	2,259 × 1,403 × 875	7,300	3,305-3,970

* **Weight** does not include mounting plate.

* **Suitable Pile Mass** is the pile weight each model is designed to handle in pile driving and is the primary figure for model selection. Figures are a guide for initial sizing, not a tested or guaranteed specification. The carrier's lifting capacity is a separate limit and should be checked as well, as the lower of the two governs. Longer piles reduce the usable figure. Actual capacity also depends on the carrier model, boom configuration and ground conditions.

Ready to precisely drive and extract their way through your toughest sheet piling and structural projects. Rent on our fleet of excavators or bare rent on your own machine.

Call ShearForce for rates and availability.
