SHEARFORCE FLAIL MOWERS

Add the power of ShearForce flail mowers to your equipment fleet.

From initial purchase to maintenance and repairs, ShearForce flail mowers offer the best return on your equipment investment. ShearForce's FM Series excavator-mounted flail mowers are designed to cut grasses, brush and brambles. They can also access locations that are inaccessible to conventional mowers and tractors, including steep slopes, river banks, ditches and hilly areas.

SAVE MONEY WITHOUT SACRIFICING POWER AND DURABILITY.

- Available with J style blades or hammer knives for optimal performance in all applications.*
- Hydraulic bypass protects the hydraulic motor by diverting sudden build-ups of pressure.
- Mechanical Float Adapter allows smooth mowing operation following the contour of the ground.*
- Protective rotor ends keep vines and cables that wrap around the rotor from damaging the bearings.
- No case drain line required.

*Available on select models.
